Description of Cooperative Arrangements

The agreement between the Title XIX agency and the rehabilitation agency will include the following: definition of factors of eligibility in each of the programs; identification of the basic responsibility of each program and the precedence assigned; and delineation of the objective of the agreement which shall be directed towards pooling the resources of both agencies to the fullest advantage to recipients.

The agreement will provide for a reciprocal referral service; an exchange of reports of services to mutual recipients; coordination of plans for individuals; joint periodic evaluation of policies affecting the points of cooperation; joint planning for needed changes to achieve identified mutual goals; a system of continuous liaison between agencies; and incorporation of staff training for each agency by means of manual releases and other appropriate channels.

Arrangements with the Title V agency will assure the strengthening of services to crippled children by permitting a broader scope and greater amount of medical services.
